## **Information Technology Sector**

20. *July 13, Securityweek* – (International) **APT group uses Seaduke trojan to steal data from high-value targets.** Security researchers from Symantec released an analysis of the highly-configurable Seaduke trojan used by an advanced persistent threat (APT) group known for cyber-espionage attacks against high-value targets including government organizations. The report revealed that the trojan is installed onto select systems through the CozyDuke trojan, and that it shares similarities with other “Duke” malware.  
Source: <http://www.securityweek.com/apt-group-uses-seaduke-trojan-steal-data-high-value-targets>
21. *July 13, Securityweek* – (International) **Java zero-day used in attacks on NATO member, U.S. defense organization.** Security researchers at Trend Micro reported that the cyber-espionage group with monikers including Pawn Storm and APT28 was using a Java Oracle SE zero-day remote code execution vulnerability in attacks directed against the armed forces of a NATO member country as well as a U.S. defense organization by sending out emails containing links to malicious domains containing the exploit and a trojan dropper.  
Source: <http://www.securityweek.com/java-zero-day-used-attacks-nato-member-us-defense-organization>
22. *July 13, Securityweek* – (International) **Two new Flash Player zero-day bugs found in Hacking Team leak.** Security researchers discovered exploits for two additional Adobe Flash Player zero-day vulnerabilities in the recent Hacking Team data leak, including a flaw in the DisplayObject class in ActionScript 3, and a use-after-free (UAF) vulnerability in the ActionScript3 BitmapData object. Both vulnerabilities allow a remote, unauthenticated attacker to execute arbitrary code on an affected system.

### **Internet Alert Dashboard**

To report cyber infrastructure incidents or to request information, please contact US-CERT at [soc@us-cert.gov](mailto:soc@us-cert.gov) or visit their Web site: <http://www.us-cert.gov>

Information on IT information sharing and analysis can be found at the IT ISAC (Information Sharing and Analysis Center) Web site: <http://www.it-isac.org>

## **Communications Sector**

23. *July 13, WXYZ 7 Detroit* – (Michigan) **Cable provider WOW says weekend attack on servers left Michigan customers without internet service.** Metro Detroit customers of WOW, an Internet, cable and phone service provider, experienced an Internet outage during the weekend of July 11 due to an attack on the Domain Name Server. Crews repaired the issue July 13 and most customers have internet service.

Source: <http://www.wxyz.com/news/cable-provider-wow-says-attack-has-left-michigan-customers-without-internet-service>

24. *July 11, WSIL 3 Harrisburg* – (Illinois) **Major Frontier Internet outage affects thousands.** A Frontier Communications spokesperson reported July 10 that tens of thousands of customers in Southern Illinois experienced an Internet outage after railroad workers cut one of the company's cables in Du Quoin. The cable has now been repaired and service was restored.  
Source: <http://www.wsilv.com/home/top-story/Major-Frontier-Internet-Outage-Affects-Thousands-313868071.html>

## **Commercial Facilities Sector**

25. *July 13, WOFL 35 Orlando* – (Florida) **75 students displaced after major apartments building fire near UCF.** A July 12 fire prompted the evacuation of 75 people from Tivoli Apartments in Oviedo, Florida after the fire spread to the roof of the building and damaged 24 units. No injuries were reported and the cause of the fire is under investigation.  
Source: <http://www.myfoxorlando.com/story/29530085/massive-fire-at-tivoli-apartment-complex-near-ucf>
26. *July 13, KNDO 23 Yakima* – (Washington) **Costco back open after Saturday evacuation.** A Kennewick, Washington Costco Wholesale store reopened July 12 after a mechanical problem in its refrigerating system prompted the closure and evacuation of the store July 11. The issue has been fixed and authorities reported no hazardous materials were leaked.  
Source: <http://www.nbcrighnow.com/story/29527710/leak-in-refrigeration-causes-costco-evacuation>
27. *July 12, Grand Forks Herald* – (North Dakota) **Wal-Mart reopens after Sunday night gun threat, evacuation.** A Grand Forks, North Dakota Walmart reopened July 13 after a Wal-Mart manager received a threatening call of an active gunman in its store July 12, prompting the closure of the store, numerous SWAT crews, law enforcement vehicles, and the evacuation of 100 customer and employees. Police found no threat in the building and are investigating the case.  
Source: <http://www.grandforksherald.com/news/crime-and-courts/3784615-updated-wal-mart-reopens-after-sunday-night-gun-threat-evacuation>
28. *July 10, Associated Press* – (National) **Data breach at 'sweetest place on earth' may have compromised guests' financial info.** Hershey Entertainment & Resorts reported July 10 that its point-of-sale system (PoS) was compromised after a program was installed in its payment system that extracted payment card data from February 14 – June 2. The company is working to resolve the issue and is offering card monitoring to those affected.
